SETTING UP REMOTE MAC SOFTWARE

- ***** Your MAC must be running Snow Leopard or greater******* for the operating system.
- Click the App store Icon to download the Remote Mac Software.

• At the top right corner you can click the search Icon and search "Revoremote"

• You will enter the name and click search to find the Revo application.

• Once the app is located, you will need to click on free and install.

- Once have chosen to install the application, then you will be asked to insert your apple id and password (to download applications)
- You will launch the REVO Application by clicking on your Launchpad.

• Once you have launched the Revo application, click on the preference icon to add your site information.

- You have two modes to select from, Dvrns Mode (using your Dvr name to connect) or IP mode (preferably if you have a static ip address)
- Select your mode, then type in either your dvrname for Dvrns mode or the static ip for IP mode and click search.
- If your information is correct, then you will get the authentication screen to enter your user id of admin and your Dvr' password (not your dashboard password).
