Dome Camera with IR Night Vision

Instruction Manual

---

Thank you for purchasing our product. Before installing this camera, please read this instruction manual carefully to ensure proper use.

1. Safety Precautions

   - **CAUTION**

     \[\begin{array}{l}
     \text{Disposal of Old Electrical Equipment (Applicable in the European Union and other European countries with separate collection systems,}
     
     \quad \text{This camera is not sealed against water or water vapor intrusion,}
     
     \quad \text{and is only intended for indoor use.}
     
     \quad \text{Please do not touch the sensor element. If necessary, use}
     
     \quad \text{a soft cloth moistened with alcohol to wipe off any dust.}
     
     \quad \text{Please avoid places where there is direct sunlight.}
     
     \quad \text{Please avoid places where temperatures exceed 50°C (122°F) or}
     
     \quad \text{more. High humidity or where direct rain drop hits, frequent vibrations, or shock occur.}
     \end{array}\]

   - **WARNING**

     \[\begin{array}{l}
     \text{Do not use the camera in hazardous environments such as}
     
     \quad \text{flooding or where it could be damaged by water,}
     
     \quad \text{or in environments with explosive atmospheres.}
     \end{array}\]

2. Description
   - The indoor Illuminator camera uses a highly sensitive 1/3" interline transfer color image sensor, which provides extremely high resolution and high sensitivity. This camera offers excellent image quality and functions with low light and high signal stability, and is not subject to distortions from magnetic fields.
   - Easy to install, this camera is an excellent choice for your CCTV system.

3. Feature
   - Super high resolution camera with a built-in high performance infrared Illuminator module.
   - High sensitivity, low noise, excellent anti-snooping, and high S/N ratio.
   - Supports functions: Auto Electronic Shutter (AES), Auto Gain Control (AGC), Auto White Balance (AWB), Back Light Compensation (BLC), and Frameless mode (FL).
   - Automatic IR Cut Filter Removal.
   - Low DC power consumption.

5. Installation & Operation
   1. Install Preparation
      - Drill a hole in the wall if the cable needs to go through the wall.
      - **Note!**
        - The IR dome’s RU-122 cable may run directly through a drilled hole in the mounting surface, or through the camera’s rim at one of three locations. The camera’s rim may be clipped at any of the cable’s exit points to allow flat camera mounting.

   2. Removing the Dome Cover
      - Remove the dome cover from the main body by gently turning the cover counter-clockwise to unlock and pull free from the main body.

   3. Wiring Instructions
      - Connect one end of the cable to the RU-122 module on the camera base, connect the other end of the cable to the RU-12 port of the DVR.

   4. Install Camera
      - Use the 4 screws provided to attach the camera and bracket to the ceiling surface or wall.
